

HELP US TEST FUN AND QUICK TOOLS FOR ASSESSING EYE GAZE!

**FOR YOUR TIME, YOU AND YOUR
CHILD WILL RECEIVE \$75-\$135!**

If this tool works, it can help:

- Make early diagnosis of autism easier
- Reduce wait time for diagnosis
- Increase access to early intervention

How are you eligible?

- Your child is between 2 and 17 years old
- Your child will or has been seen at Stanford University for a question of Autism Spectrum Disorder (ASD) or another concern about their development

What does this study involve?

- You will complete a parent interview and fill out some questionnaires about your child
- Your child may:
 - Experience a fun, quick, and child-friendly eye gaze activity that will involve looking at some pictures on a screen
 - Complete some measures of their development and behavior
 - Participate in 2 follow up visits 2 weeks and 16 weeks later

Appointments will be scheduled at your convenience.
Participation in this study is voluntary and you can choose to leave at any time.

How can you join?

If you are interested in joining this study or would like more information, please contact autismdd@stanford.edu, (650) 736-1235. We will ask some additional questions to make sure you are eligible for the study.
