

THE BRIDGE STUDY

Brain Indicators of
Developmental Growth

Do you have a
child between the
ages of 2 and 5?

Help us learn how
brain development
impacts language
growth.

Who can participate?

- Children between the ages of 2-5
- We are also recruiting children with Autism Spectrum Disorder!

Participating families receive:

- Written report of completed language and cognitive assessments
- Cash payment or gift card
- Free parking or transportation assistance
- Small toy for each child
- Free childcare for siblings

This study involves **two** research visits each 1 year apart. Our lab is located near the Brookline Village Green Line T stop.
