

Help us learn more about communication in young children with autism!

There will be no costs to families for participating in this KU research project.

Participation involves:

- 1.5-1.75hr in-home session via Zoom

Parents and children will complete surveys, play activities, and standardized assessments of communication.

Parents will receive \$25 for their participation.

All participants will need to meet the following criteria:

1. Between the ages of 4 and 6 years
2. Have a diagnosis of autism spectrum disorder
3. Normal vision and hearing
4. Absence of major medical or genetic diagnoses
