

UTHealth[®] Houston **Parents and Caregivers of Adults with**
School of Public Health **Autism Spectrum Disorder Needed**

**To complete an online survey designed for parents and caregivers
to share their adult's experience getting health care**

We want to learn if adults with autism utilize more healthcare resources and services and if any social determinants of health are associated with this.

Social determinants of health are factors such as age, race, gender, insurance status, and housing status that impacts the health of an individual.

To participate in this study, you must:

- Be a parent or caregiver of an adult 18-65 that has been diagnosed with Autism Spectrum Disorder
 - English speaking

Participation involves:

- Taking a 15 minute online survey

**You can enter for a chance to receive one of 5 \$100
gift card for your time**
