

# Autistic adults: share your experiences with challenging walking environments!

We want to understand what types of physical and sensory contexts autistic adults find challenging when walking.

You can participate if you:

- Are 18 years of age or older AND
- Identify as autistic, on the spectrum, Aspie, or a person with autism/Asperger's.

Participation involves uploading a photo of an environment you find challenging and answering a few questions about it. You can participate as many times as you want to. It takes about 10-15 minutes per photo.

Participation is anonymous and can be done at your convenience.

Questions? E-mail us at [UM-MVDLab@umich.edu](mailto:UM-MVDLab@umich.edu).
