Looking for volunteers to participate in a research study examining the gestures of autistic children between the ages of 4 to 8.11 years old. The first phase of this study will be an online survey conducted with the caregiver(s). The next phase of the study is an optional online interview conducted by the researcher. The final phase of this study is also optional. In the final phase, caregivers will be asked to record the caregiver and the child at home in a 20-minute play time experience. Participation in any phase of the study is not required.

This research is being conducted as part of a dissertation study at Fielding Graduate University. Participation is voluntary. If you are interested, please contact Mary Ann O'Connell, the principal researcher at moconnell@fielding.edu for more information.

Thank you,

Mary Ann O'Connell, M.A., CCC-SLP

Doctoral Student, Fielding Graduate University
